

Welcome!

Welcome!

If you are new at this like I was:

First, you will need to download this and open it in Adobe Reader

Then click view on the menu bar, point to "rotate view" and click "counterclockwise"

How to register on line. For those of you who, like me, may not have done this before, it is simple.

- In the upper right corner click "Fill & Sign"
- Click on "Add Text" and then click in the line you want to type on. The cursor will appear and you can start typing in your information.
- Don't worry if you don't have all the information, we can find your confirmation date later, it's OK.
- When you have filled out both pages click the save icon or click "File" on the menu bar and then "Save." Choose where to save the form (my documents or desktop, maybe) and save it.
- Email the saved file back to: jeromeclev@dioceseofcleveland.org

St. Jerome Catholic Church

Registration Form
